

Project Development Phase Performance Test

Date	20 May 2023
Team ID	NM2023TMID17628
Project Name	Go No Queue -Rush Estimator for Corporate Cafeteria

Model Performance Testing:

Project team shall fill the following information in the performance testing template.

Parameter	Values	Screenshot
Metrics	<p>Wowki Execution time and Output screenshot</p> <p>Or</p> <p>Python accuracy of prediction and output screenshot</p>	 <p>The top part of the screenshot shows a Python script running in a terminal window. It contains a loop that repeatedly connects to a device (Device ID: 123456) and disconnects from it. The bottom part shows a video frame with a person's face detected by a green bounding box.</p>  <p>The bottom part of the screenshot shows the IBM IoT to people encounter dashboard. It features two circular gauges: 'people coming out' with a value of 10, and 'people coming in' with a value of 4.</p>  <p>The bottom part of the screenshot shows the IBM Watson IoT Platform interface. It displays a table of devices with columns for Device ID, Status, Device Type, Class ID, and Date Added. The table shows two devices: one with ID 04111990 (Disconnected) and one with ID 123456 (Connected). Below the table, there is a section for 'Device Information' for the selected device (123456), showing details like Device ID, Device Type, Date Added, Added By, and Connection Status.</p>
